## CONVENTION OF WOMEN VOTERS

Big League Gathering Opened in Cleveland.

MANY DELEGATES ARE IN ATTENDANCE

Nearly Every Congressional District in United States Has Representation.

Cleveland, April 11.—"To work the thing."

The second annual convention of the League of Women Voters opened here today, at Hotel Statler, with all indications of carrying out their slogan—"a working convention."

Everybody was on duty. Typewriters busily clicking—registering arriving delegates. Pages and waiters dashing hither and thither.

With all seriousness of purpose, the women are getting right down to the issue—to amend and regulate existing laws and enact new legislation to make the voice of the woman voter heard.

Simultaneous conferences were being held throughout the day with such prominent women as Mrs. Carrie Chapman Catt, Mrs. Catherine Waugh McCulloch, Hon. Jeannette Rankin and Mrs. Costigan, wife of Hon. Edward P. Costigan, of the federal tariff commission, acting as chairmen on various committees.

American citizenship, child welfare, food supply and demand, social hygiene, election laws and methods, uniform laws concerning women, women in industry—the women delegates are attending discussions of all these. Subjects which were formerly "verboten" are openly and broadly analyzed.

One rushes from one place to another vastly impressed by the brilliance of these women—and the thoroughness. Even the Billman case was being discussed by a group of prominent lawyers.

Delegates from every congressional district are registered. Miss Roberta Star, of Elkhart, who is the executive secretary for Indiana, is attending the convention in a wheelchair, which does not in the least interfere with her activity and performance of executive duties.

Among those registered from Columbus are Miss Caroline Breyfogle, former dean of women at Ohio State university and Mrs. Dora S. Bachman, Ohio committee chairman and lawyer. Miss Rose Moriarty, an noon program.

active worker in last year's Republican state campaign, is on the afternoon. There is a heavy calendar continuing through the week until the convention closes on Saturday with luncheons and conference dinners and a banquet, Thursday evening, when Mrs. Harriet Taylor Upton will be one of the speakers.

Several Cleveland clubs have opened their houses and extended privileges to the attending delegates.

Big Meeting.

Cleveland, April 11.—Delegates from every state and almost every congressional district in the union are present, this morning, at the second annual convention of the League of Women Voters begins its sessions which will last throughout the week, having for its purpose the formulation of a program upon which it will ask action from the national congress and the state legislatures.

Injection of the race issue occurred yesterday, when a delegation of colored women appeared before the national board of the league. They were heard behind closed doors. A statement issued by the delegation after the hearing stated that they would ask an investigation of conditions in the south, especially as they relate to suffrage. It was said that negroes in the South, without regard to sex, were generally disfranchised.

No hint of the probable convention attitude was given, although Southern delegates said that any attempt to inject this issue would be bitterly fought.

More than 2,000 delegates are expected to be present before the day is over.

## CLEVELAND CARMEN WILL TAKE A VOTE

Three Propositions Submitted for Consideration.

Cleveland, April 11.—Cleveland carmen, employees of the Cleveland Railway company, will vote tomorrow, upon three alternative propositions for the settlement of the controversy over wages for the year beginning May 1. That one of the three propositions will be accepted, and a strike averted is expected, by all as a foregone conclusion. The propositions are:

1.—Submission of the controversy, including the closed-shop principle, to a board of arbitration as provided in the contract.

2.—No change in the present understanding on the closed shop but a twenty-percent reduction in pay as demanded by the company, raising the scale range from \$2.50 to \$6.50.

3.—Retention of the closed shop, but a provision for a basic pay scale of fifty-five cents for all men in the first year of service and sixty-two cents for all men over one year.

With the two latter propositions are included concessions from the company relative to overtime on Sundays and for "long swing" runs.

ALARM IS FELT FOR THE FUTURE

American Trade Is Menaced, Says Report.

BUYERS' STRIKES ARE HAVING EFFECT

Breakdown in Foreign Trade Will React Seriously on Domestic Affairs of America.

Washington, April 11.—Buyers' strikes caused by upsets in export markets exchange disorders and price declines, are running a course that is world wide. Cabot reports to government officials, today, revealed a situation with so many elements of danger for American interests that alarm was plainly felt for the future of American trade.

Breakdown in foreign trade, if long continued, inevitably will react so seriously upon domestic affairs, officials agreed, that leaders in government finance and trade focused their attention upon measures of possible relief for American producers and business interests generally.

Secretary of Commerce Hoover's cable advice all revealed that world conditions are far from stabilized, foreign markets are glutted with their own products, waves of price cutting have set in and extraordinary competitive measures are in process of being projected. From a financial standpoint, reports equally discouraging were received by those in charge of the country's fiscal affairs.

Europe's plight was reflected in reports to the federal board that leading European countries have practically exhausted their buying power.

To Keep Moving.

Federal officials, in the face of the present stagnant condition of trade, turned their attention to the problem of keeping American products moving. Secretary Hoover, Governor Harding and his associates of the federal reserve board and officials of the war finance corporation are grappling with the question. Out of the conferences now under way aimed to bring financial relief to the producing and manufacturing interests, the development of a more comprehensive commercial program along national lines is expected.

Governor Harding said that Americans must get busy and do some trading with the world upon a larger scale. If Europe's debts of \$10,000,000,000 in government loans and \$4,000,000,000 owing to private creditors are paid.

"Before the war European investments in the United States and balances owed by American business houses to Europeans, amounted to over \$4,000,000,000," said Governor Harding.

"European capital did a great deal toward building up America. Now the situation has reversed itself. Europe is indebted to the United States to the extent of \$14,000,000,000 in loans and private obligations.

"In order to collect these sums, we must do some trading. Europe can not ship us gold indefinitely, in order for this country to prosper, we must produce.

"To continue to produce, we must sell and in order to sell, we must buy. We should do what we can to put European countries in a position where they can make purchases to meet their own requirements. Give them their share of world trade, so as to keep things moving and liquidate this situation of frozen credits."

A Conspiracy.

London, April 11.—The British government has discovered a wide spread conspiracy to subvert the loyalty and discipline of the troops, according to the Pall Mall Gazette, today. A number of arrests have already been made and others are expected to follow. Accusers have also said to be threatening the men volunteering for the citizen's emergency corps called by King George.

## HARMONIOUS ACTION URGED

Insurance Company Head Talks of Rail Troubles.

SAYS RAIL EXECUTIVES TAKE WRONG POSITION

Criticizes Attitude Toward Labor—A Letter Addressed to New York Central Chief.

New York, April 11.—Haley Fiske, president of the Metropolitan Life Insurance company, declared that some railroads are making a mistake in their attitude toward labor.

Fiske so informed A. H. Smith, president of the New York Central lines, in a letter given out here today. Fiske is a member of the executive committee of the National Association of Owners of Railroad Securities.

The letter was in reply to Mr. Smith's letter to S. Davies Warfield, president of the association, taking exception to the position of the associations' executive employees.

"Our assumption," Mr. Fiske wrote, "that in seeking a conference with the labor representatives, the most important element in the present problem, we were pretending to represent you on your board, was quite unwarranted. We very frankly put our real position before these organizations and the public. We think the present truculent attitude of some railroad administrations towards the operatives and the unions a great mistake which may lead to disaster, and that it is time that all concerned in the properties should show some conciliatory disposition, at least to the extent of endeavoring to get the point of view of labor, and to seek some method of negotiation to end the present impasse."

Mr. Fiske stated that the Metropolitan Life Insurance company holds securities of the New York Central railroad and its subsidiaries amounting to nearly \$23,000,000 par value. In addition, it has on its stock books loans and agreements to loan over \$3,000,000 on bonds and mortgages upon real estate "to finance your operations in the neighborhood of your terminal." "Altogether," he added, "our financial interest amounts to \$32,000,000. This is about 15 per cent of our total investment in railroad securities.

"Frankly, it disturbs us," Mr. Fiske added, "to have your boards of directors say that they represent in their dealings with the present condition of affairs the stockholder, without any recognition of the superior obligations of the railroad companies. It may very well be that matters are now threatening, the stock will become a rather negligible quantity; the bonds will never become so.

"Our interest in your company is a vital one. It is very disturbing to read that you are disposed to ignore this interest. It is even more disturbing to find yourself and your board recent any action on our part to protect our interests."

YESTERDAY'S COLD SNAP NOT RECORD

Other Years Show Lower Temperatures in April.

Wooler, April 11.—Yesterday's cold snap was not a record for Ohio April weather, according to a statement by the official weather authority at the experiment station, this morning. Below are given reports for other years, showing a lower temperature:

America's Sheep King United States Senator

A member of the United States senate, a millionaire and sheep king of America at forty-three, is the enviable accomplishment of Robert N. Stanford, of Oregon.

Senator Stanford took his seat in the upper house on March 4. Mr. Stanford's father was a pioneer in California and Oregon and at his death a few years ago he left to be cared for by young Stanford, he was then but a boy, left school to run the ranch for his father. He tried cattle and then sheep, and today is a millionaire. Senator Stanford has been in Oregon since 1913. It is said that the sheep on the senator's own range number 200,000 in a single season and are sold at \$100 a head.

## RESTAURANTS CUT PRICES IN COLUMBUS

Finally Announces a Reduction in Their Charges.

Columbus, April 11.—A considerable decrease in prices of food-stuffs here is reported today in the Columbus restaurants on High street. All dinners on their menus will be lowered by the new schedule.

By careful computation it is possible for one to save five cents on a simple breakfast of the time-honored fried eggs, potatoes, toast and coffee.

The reduction runs from ten cents on some articles to two cents on most of them.

Manager Hammel in announcing the reduction last night said that he could have reduced prices before had the wholesale market proved stable.

AMERICAN MANDATE PROTEST ANSWERED

One of Powers Addressed Sends Reply to Washington.

The American notes were addressed to Japan, Great Britain, France and Italy. It is not known which of the nations has replied but it is believed to be either France or Great Britain.

NEW OFFENSIVE BEING PLANNED

Creeks Confident They Can Rout Turkish Forces.

Athens, April 11.—The Greeks express confidence that they can yet defeat the Turks in Asia Minor, notwithstanding the serious Greek losses before Eski-Shehr. Reinforcements are being sent to the front.

King Constantine is said to be anxious to go to the fighting zone, but opinion as to this is divided, particularly as his health is not of the best. Prince George also wishes to go to the front.

The people are hoping that a reversal of the offensive against the Turks on a large scale will succeed in dislodging the enemy.

Realization that the country has not yet obtained a foreign loan is causing many patriotic Greeks to consider pledging their fortunes, some women are even discussing pledging their jewels, if necessary. Officials attribute the unexpected Turkish resistance on the Brusa sector to the arrival of reinforcements from Greece and to aid from the Italians. They assert the Greek retreat from Brusa was a mere war episode.

Michigan Hard Hit.

Paw Paw, Michigan, April 11.—The cold weather of the last few days has damaged Michigan fruit to the extent of tens of thousands of dollars, fruit growers here estimated today.

New Legislation.

Washington, April 11.—Legislation which would force employers and employees to negotiate labor difficulties before a strike is called, is under consideration by Secretary of Labor Davis, he announced today.

## ORGANIZATION TO BEGIN SUIT

Will Make Attack on Dunn Bill Emergency Clause.

BURKE AND BENDER TO LEAD ASSAULT

Will Test Constitutionality of Clause in Supreme Court, According to Announcement.

Columbus, April 11.—Announcement that State Senators J. F. Burke, Elyria, and George H. Bender, Cleveland, Republicans, will head an organization which will ask the state supreme court to declare unconstitutional the emergency clause attached to the Dunn bill providing for reorganization of state departments, was made here today.

When the Dunn bill passed the senate, last week, Senators Burke and Bender and Endley, of Richland county, Republican, voted against the emergency clause. Although Senators Burke and Bender voted against the bill proper, Senator Endley voted for it.

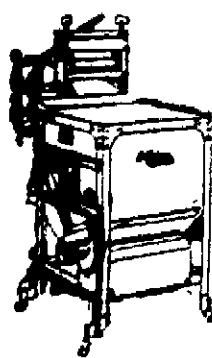

It is stated here that Senators Burke and Bender will confer at Cleveland today with representatives of Cleveland organizations opposed to the message relative to the proposal that plans be perfected with the view to having the state supreme court determine whether the emergency clause is valid.

Senators Burke and Bender, it is understood, will act as leaders in organizing the People's Power League, which is expected to open state headquarters here this week. Within the next few days, it is said, petitions will be circulated relative to a supreme court hearing.</

### CHURCH SOCIETIES

**Trinity Baptist.**  
R. La Rue Cober, graduate and instructor at Denison university, addressed both morning and evening services at the Trinity Baptist church yesterday. Mr. Cober's sermon last night was on the subject, "Who is My Neighbor?" The text was taken from Luke 10:27, the parable of the Good Samaritan, and consisted of developing the text along modern lines. Mr. Cober is instructor of Spanish at Denison university, having gained his experience in the use of that language during a four-year stay in Porto Rico with his father, who is a returned missionary. Mr. Cober expects to enter a theological seminary this fall. His subject next Sunday evening will be, "My Religious Experience in France."

Tuesday evening at 7:30 o'clock, the lay class will have a social at the church, followed by a business meeting.

Prayer meeting Wednesday evening of this week will be led by Dr. T. H. McAtee. The service will open at 7:30 p. m. and will be on the second chapter of Ephesians.

**Blue Bird Class.**  
The Blue Bird class, of Calvary Evangelical church, met Saturday afternoon with Miss Stella May Bailey, on Henry street. After a program put on by the entertainment committee, the time was passed socially.

The guests were Mrs. L. D. Zachman, Miss Helen Markert, Katherine Luech, Mildred Higgins and Mollie Bailey.

**New Era Superintendent Speaks.**  
Rev. W. S. Bingham, of Delaware, New Era superintendent for the Marion Presbytery, spoke both morning and evening at the Forest Lawn Presbyterian church to good-sized audiences. In the morning he spoke on "Giving" and in the evening preached an evangelistic sermon.

**King's Herald.**  
The members of the King's Herald of the Prospect M. E. church were entertained Sunday afternoon at the home of Miss Vera Mae and Martha Schmiedt, of Bain avenue. Following the lesson study Miss Anna Von Endt sang a solo, after which Miss Lenore Zuck gave a reading. Miss Mabel Medlam played a piano number and Miss Ruth Schott contributed a reading.

**At Nazarene Church.**  
Rev. J. W. Henry preached two able sermons at the Nazarene church Sunday, taking for his morning text, "The Little Foxes," found in the Songs of Solomon 2:15. In the evening he preached on "The First Commandment" from Luke 12:13.

**Evangelist Shellman's Sermon.**  
Sunday afternoon Evangelist Joseph Shellman spoke at the Seventh-Day Adventist church on the subject of "The Identical Seventh Day." It is possible to know which is the seventh day of the week, the true Sabbath day, counting from creation," the evangelist began. "Men are willing to admit that the seventh day of creation week was set apart as the Sabbath, that it was appointed by God to be observed as a day of rest, and in the fourth commandment of the decalogue given on Mt. Sinai men are charged to keep it. Going back to the beginning of the record of the creation in the first chapter of Genesis we read the evening and the morning were the first day," each evening and morning completing a cycle of a day. In the thirty-first verse we read, "In the evening and the morning were the sixth day," thus the heavens and the earth were finished and all the host of them, and the seventh day God

rested from all his work. Can we identify that day now that 5,000 years have nearly passed?"

"From creation to the giving of the law on Mt. Sinai was 2,500 years and for forty years God pointed out to the children of Israel during their wanderings in the wilderness a definite Sabbath day each week, when manna was given for six days, a double portion falling upon the sixth day and none on the seventh day. The manna continued to fall for forty years, and 2,500 identical Sabbath days were pointed out in this miraculous manner."

"Coming down to the time of Christ 4,000 years from creation we find that Christ kept the identical seventh day given at creation, and

rested from all his work. Can we identify that day now that 5,000 years have nearly passed?"

## CHRYSLER BROTHERS COOKED BY MAYOR

Charles Chrysler Draws Surprise of \$800 Saturday.

BROTHER WILLIAM GETS CAY AND IS FINED \$200

Just Another Little Bootlegging Chapter Added to Police Book of Violators.

About 5:30 o'clock Saturday afternoon the police visited the place conducted by Charles Chrysler, No. 193 North Main street, to search for intoxicating liquors. The affidavit for the search warrant was sworn to by Chief J. W. Thompson. In the search two pop bottles filled with corn whisky were found by the officers and the proprietor was arrested.

The case was a short one. Chrysler was taken to headquarters and arraigned before Mayor T. E. Andrews to answer an affidavit charging him with selling intoxicants for beverage purposes. He entered a plea of guilty and was fined \$800 and the costs. In default of payment he was confined to the city prison.

While the proprietor was locked up, his brother, William Chrysler, took charge of the place and proceeded to carry out the business. Shortly before 7 o'clock officers again visited the place with a search warrant. Officer Andrews took a glass of the liquor which had just been served and passed it to another officer. William Chrysler took exception to this action and took a club from under the bar to show the officer fight, but Andrews displayed some Jack Dempsey tactics and soon put Chrysler out in pugilistic style.

Another search of the place was made and two quarts of liquor were found in the place and a quart bottle about half full was found under the bar. William was taken before the mayor and entered a plea of not guilty, but this morning he changed his plea of guilty and was fined \$200 and costs.

## MARION THEATER OWNERS SELL BUCYRUS INTERESTS

Will Devote Time to Contemporary Local Project.

It was announced today that the Marion Photo-Play company had turned over its Bucyrus holdings to a new operating company for a substantial sum, the transfer to the new corporation being preliminary on the part of the Marion men to devoting their exclusive attention to local theater projects contemplated by the Marion Photo-Play company. Saturday's Bucyrus Telegraph carried the following:

That options have been secured by a new company being formed for the purpose of taking over both the Hippodrome and Southern moving picture theaters in this city. It is the news that was made public today, the expected transfer of the properties to new hands to be made May 1st.

The development carries with it another interesting later possibility—the construction in this city of a big theater for the production of both "legitimate" theatricals and moving pictures—a far larger house than Bucyrus now boasts with equipment which will permit bringing in big theatrical companies and with a seating capacity which will much better meet the demands of the moving picture patrons at special film features. While it is rumored that such a development is seriously included in the plans of the new company, there will be no immediate steps to carry out this project, which is expected to be taken up later on.

The Hertzler family, owners of the Hippodrome theater, are to hold an important share of the stock in the new company, which will be incorporated very soon, the only other stockholder being G. H. Moore, of Bellevue, who recently relinquished a lease granted to him by L. D. Pickering on the Grand theater. It is understood that absorption of the stock by the two parties mentioned

has been arranged and that no stock in the theater holdings will be offered for sale.

The owners of the Marion theater at Marion, who acquired the Southern several years ago, are disposing of their interests here entirely to the new company. The house on the Southern was taken over by Foster, McMurray & Sharpless, of Marion all interested in the Marion theater, when R. H. Elbertson retired from operating that house, and the Southern has been operated by those interests ever since, Miss Oweka Woodruff acting as manager.

The Hippodrome theater was sold by W. P. Newman over two years ago, to Otto Hertzler and the Hertzlers have operated the house successfully ever since. Lorraine Hertzler taking over the active management soon after the transfer.

Both houses have had a very successful period of operation under their present owners and management, and have a far-reaching and substantial patronage. The operation of neither house will be affected by the options and the transfer but both are running and will continue to run without interruption.

Apple and Pear Crops Are Badly Damaged—Florists Report Heavy Loss.

Fruit and garden truck were severely damaged by the cold wave Sunday afternoon and night and reports from local florists and gardeners indicate that the freeze Sunday night badly cut vegetation and killed what early fruit had escaped the cold period following Easter.

A real winter "dareback" was experienced beginning Saturday night with a rain that turned to snow. The temperature dropped to thirty-one degrees Saturday night, but observers were of the opinion that this did no great damage. Practically all day Sunday snow fell and sharp wind from the west started the mercury down in the afternoon, the low temperature for Sunday night reaching twenty-six degrees. Garden truck just coming out of the ground was cut off and spring flowers badly nipped. S. B. Stowe, county farm agent, stated that reports reaching him indicate that the cherry, peach and plum crops, seriously damaged in the recent cold spell, were entirely killed by Sunday night's cold weather. Apple and pear crops also were badly damaged, although Mr. Stowe stated it is possible that some of this fruit was not far enough advanced to be entirely killed. He said the entire extent of the damage will be unknown for several days and that if it does not turn warm too quickly the damage may be considerable lessened.

## MANSFIELD GETS NEXT MEETING OF OHIO TYPOS

Forty-Four Hour Week in Commercial Shops.

TWENTY-EIGHTH ANNUAL  
SESSION IS HELD HERE

John J. Hoban and Max Hays  
Are Among Big Men of Union  
in Attendance.

An unvarying sentiment on the part of the various local unions to support the international office in insisting on putting the forty-four hour week into effect in commercial shops was reported by delegates to the twenty-eighth semi-annual session of the Ohio Typographical conference which closed here Sunday.

While the delegates announced that most shops have indicated that forty-four hour week will be put into effect May 1, it was admitted that some employers are opposing the movement and there is a likelihood of strikes in some sections of the state. Sessions of the conference were held Saturday night and Sunday in the Maccabee hall on north Main street. Mansfield was chosen for the October conference.

John J. Hoban, Cleveland, international vice president, and Max Hays, Cleveland, international organizer, in addresses before the conference asserted the unions are merely insisting on the carrying out of an agreement entered into with the employers in April, 1919. Mr. Hays declared there will undoubtedly be strikes in some places to enforce the carrying into effect of the agreement and predicted a termination of these strikes with a victory for the unions within two or three weeks.

Those Not in the Accord. In P. Rogers, Springfield, president of the conference, pointed out that enforcement of the forty-four hour week will be insisted upon May 1 only in shops where contracts have expired by that date. Shops which have contracts running over May 1 will not be affected by the proposal until the expiration of those agreements. Mr. Rogers declared, and added that these agreements will be lived up to by the employees to the letter.

Sessions of the conference, which drew a record representation of local unions, opened Saturday evening in the Maccabee hall. E. E. Blazer, Marion, vice president of the conference, called the conference to order and the address of welcome for the city was delivered by Fred W. Warner, prosecuting attorney acting for Mayor T. E. Andrews. F. E. Dennis, president of Marion Typographical Union, No. 675, delivered an address of welcome to the local union.

John J. Hoban addressed the conference, treating in a general way the printing industry. After which D. P. Rogers took charge of the meeting and forty-four hour week and resolutions committees were appointed. Members of the forty-four hour week committee are D. P. Rogers, Springfield, chairman; Harry Marker, Toledo; E. J. Tighe, Cleveland; O. M. Knapp, Tiffin; and Charles J. Flynn, Portsmouth. Members of the resolutions committee were J. P. Burns, Toledo, chairman; Joseph Brothers, Urbana; William Bird, Columbus; Daniel Shelby, Akron; and C. J. Woeste, Cincinnati.

Sunday morning's session opened at 9:30 o'clock with reports from the various delegates. These reports brought out the unvarying sentiment of the various local unions in insisting on putting into effect the forty-four hour week and some scattering instances where there is opposition to the move on the part of the employers.

Resolutions condemning the action of the Waco, Texas, local in passing a resolution for a referendum on the forty-four hour week were adopted. In the discussion it was explained that this action was taken by the Waco local at a special meeting and rescinded at the next regular meeting. Copies of the resolution, however, were sent out to other locals before action rescinding the resolution was taken.

Another resolution was adopted condemning the movement toward

organizing the foremen into the Printing House Craftsmen's organization.

A resolution unanimously adopted directing attention to the fact that the conference was being held in the home city of the president of the United States, "a past, an active and honorary member of the International Typographical union." The resolution expressed the sentiment that "the members assembled take great pride in the fact that the American people have bestowed this honor upon Warren G. Harding, one of our fellow members," congratulated Marion Typographical Union No. 675 and expressed the hope that "the feeling of mutual felicitation shall continue in the future as in the past."

Position Well Defined.

In answer to a suggestion that a resolution on the forty-four hour week be adopted, Chairman Burns of the resolutions committee, announced the position of the conference on that subject is already well defined as favoring enforcement of the agreement and that any further action should be taken by the committee. It was suggested that this committee begin at once the work of gathering data on the union side of the question, answer arguments of the opposition and submit this matter in pamphlet form to the different locals before May 1. Chairman Rogers, of the forty-four hour week committee, announced this will be done as early as possible. Mr. Rogers, as chairman of this committee, was instructed to attend the allied printing trades' council in Columbus next Sunday.

John J. Hoban outlined the work of the International Joint Conference council, composed of representatives of the employers and men, at various meetings in 1919. He said the forty-four hour week plan was adopted in April 1919 by this council and stated it is merely the strict application of the eight-hour day with the Saturday half-holiday.

Canton and Mansfield were the only two cities actively competing for the October meeting of the conference and Mansfield was chosen by a margin of only one vote. The election of officers will take place at this October meeting.

A dinner at the Hotel Marion at 1 o'clock Sunday afternoon closed the conference sessions. After-dinner talks were made by Mr. Hoban, Mr. Hays and Mr. Rogers and a rising

round of thanks was given the Marion local for the excellent entertainment of the delegates and visitors. Members of the committee in charge of the banquet were E. E. Blazer, chairman; T. L. Scott, Fred Haas, Mrs. Zula Biggert and Mrs. Daisy Goodchild.

## SPRING AGAIN STICKS UP HER PRETTY HEAD

After the Winter "Roarback" of  
Saturday and Sunday.

Do you know what a "Roarback" is? That's a perfectly superfluous question, now don't it, after all that "Roar" and "happened" over Sunday. Well, a "Roarback" is something like a roarback only it's a "Roarback" and it sure did roar something fierce, didn't it? The Star's star reporter observing young reporter will tell the Star's more than 10,000 readers every day that it roared, and then some.

Old Man Winter rode in on a wild, bucking broncho and the wild bucking broncho bucked so hard and so fast and so fast and so fast and so fast that one just had to buy a brace seat and watch the performance, whether he wanted to or not. It was a continuous performance of forty-eight hours. The biting wind carried a swirling snow, but nobody enjoyed the show because the setting was too realistic.

But after the winter "Roarback" spring staged a come-back today, everybody emitting a sigh of relief and settling down to the enjoyment of glorious April weather.

And the girls—oh, the girls girls—they're still wearing 'em higher and higher.

Here are the concrete weather facts covering the "Roarback": Saturday night the temperature fell to thirty-one and last night it went to twenty-six.
